

Clover Flex.

The flexible solution designed to meet your full range of payment and point-of-sale needs.

Clover Flex
Robust functionality.
Ultimate flexibility.
Total simplicity.

Help your business run more smoothly.

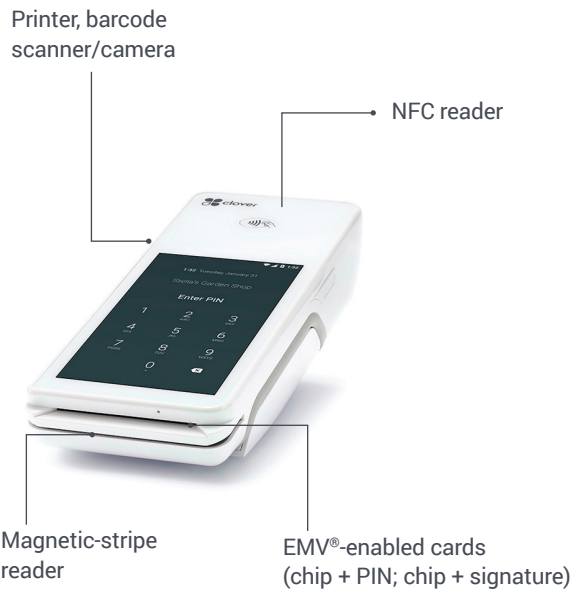

Clover Flex is the all-in-one device with the built-in capabilities to help you serve customers better—whether at the counter, in line, at the table or in the salon chair.

Easy to hold and easy to hand over to customers to dip, swipe, tap, sign or enter a PIN, Clover Flex delivers the ultimate in flexibility and simplicity in a single device freeing your mind for the things that matter.

Features that make Clover Flex stand out from the competition:

- Built-in receipt printer and barcode scanner
- Fast and flexible wireless connectivity with an optional 3G data plan
- Takes electronic signature on screen
- Prints, emails, texts and stores receipts
- Long lasting battery can support up to 8 hours of business on a single charge, for a typical SMB
- Compatible with the entire line of Clover devices
- Powered with a full suite of business management tools through the Clover Software plans and App market

Clover Flex. The smart, flexible POS device that's as dynamic as your business.

Flexibility that's ready for anything.

Clover Flex enables full integration with the complete line of Clover devices. That means you can take an order in line and close it at the counter, complete a checkout at the table or in the aisle—you're free to work as you want. And with a battery that can go a full day of business per charge*, there's never a reason to slow down.

Clover Flex makes it easy to get up and running—right out of the box.

- Accept more types of payments from magnetic stripe and EMV®-enabled credit and debit smartcards to EMV contactless (including Apple Pay®)—all without additional equipment
- Help protect your customers, business and reputation from fraud with built-in Clover Security
- Clover Flex stores digital receipts and signatures, which helps you defend against future chargebacks without keeping piles of paper
- Monitor sales and profit trends with Clover Insights and the Clover Dashboard mobile companion app (iOS and Android)
- Control employee permissions and manage employee shifts without hassle
- Build effective loyalty programs, collect customer feedback and send customer promos in minutes
